CIC Registration 9435120

Take a long look at the clouds in the sky. You can do this from your window or outside.

Can you see anything in them – faces, shapes, or objects?

How many different types of clouds can you name? Research the Met office website

Take some photos of clouds

Draw some cloud shapes and fill them with your hopes for the future. What can you do to achieve them?

Set up a weather station in the garden to record rainfall and wind direction. Compare your findings with the official records. Entertain your family and friends by presenting a weather report.

Investigate how clouds are formed and learn to identify a weather front.

Look at art which includes clouds.
Try and paint or draw your own

Clouds - where to look for information about clouds

Use The Met Office cloud spotting guide and video

www.metoffice.gov.uk/weather/learn-about/weather/types-of-weather/clouds/cloud-spotting-guide to help identify different types of clouds. They have information about the science behind clouds and weather forecasting.

Poems and quotes about clouds can be found on the internet.
